Subject: Nordon and the future of

Dear Cllr Butler,

Has the Council considered, or would it consider a community right to buy order on the Nordon site?

It would appear to be an excellent opportunity to build, maintain and expand community facilities within the Town. Whilst preserving in perpetuity public benefit from the site including the allocation of affordable housing.

If a group could be assembled to compile an application would it have your support?

<https://www.dorsetforyou.com/article/405932/Localism-and-North-Dorset-District-Council>

Would the Town Council - as it attempted for land south of the Crown - be willing to consider such an application?

I am highly aware that the site is currently being marketed to extract a capital sum in the short term for the Council. However would their not be concerns that delivery of services within the District would be highly compromised if they were to be almost solely based in Dorchester?

A community right to buy and associated vehicle could preserve more extensive space for delivery of services that is currently being considered.

I look forward to your reply,

kind regards
your constituent,
