Subject: PRE SUBMISSION PLAN CONSULTATION - POLICY 3

I would like to raise the following concerns in reference to the above Policy.

- Type of building: Positions, height, will they be privately owned or affordable housing, will my property be overlooked.
- Flood Risk: As my property is on lower ground from the proposed development, turning it into hard standing areas will result in run off down onto my property.
- Crime Risk: As the area will be no longer in a secured locked compound, entry to the rear of my property becomes easier.
- Wildlife: New Development will have a Damaging Effect on the existing bird and wildlife environment.
