**Subject:** plans for Bryanston

With reference to the proposed building plans for our village :

Having seen the plans it is strikingly evident that the planned build for Bryanston is further large houses with double garages. These houses price local people and 99% of young people (first time buyers) completely out of the market. These properties will attract more people who are in a certain age bracket ~( either retired or about to ) which will change the demography of our village even further.

Bryanston is and always has been made up of predominantly social housing. I am not adverse to new building projects but they have to be either affordable for young people to enable them to get on to the housing ladder or SOCIAL HOUSING. So many young people are caught in a housing trap of renting as they will never be able to afford a deposit to buy.

There is so little social housing around , this gov again wanting to sell off its stock and not replace it. Many young people are stuck, low wages , zero hours contracts, nowhere to live. I know this to be true as I work with young people.

WE NEED MORE SOCIAL HOUSING
